The Utah Procurement Code provides that a procurement may be made without competition when there is only one source for the required supply or service. Therefore, a "sole source" procurement is justified if there is only one product or service that can reasonably meet the state's need and there is only one vendor who can provide the product or service.

The Division of Purchasing has received a request to make the following sole source procurement.

Requesting Agency: **Department of Community and Economic Development, Travel Council**

Product and/or service to be purchased: **tourist information/reservation system**

Proposed Sole Source Supplier: **Ad-Dis-Play**

Sole Source Justification: **This company will provide a stand-alone, interactive electronic delivery system for tourism information, including reservation services for destinations such as lodging, food and attractions. They will install the system and provide ongoing service and repair, including phone and computer support. In addition, and most importantly, they will enter into a profit sharing agreement with the State of Utah.**

If for any reason any party does not agree with the proposed sole source procurement, please email **Roselle Miller** in the Utah Division of Purchasing at **rwmiller@utah.gov** prior to the "Due Date for Comments" indicated above.
